Achieve effective and seamless patient flow, including patient access to Renal Replacement Therapy (RRT), consistently across MRP sites.

**PATIENT FLOW**

Improve accurate and effective transfer of patient information between service providers at all transition points.

**SKIN & WOUND CARE**

Develop and implement a standardized approach to skin and wound care management to be used consistently across MRP.

**PATIENT INFORMATION TRANSFER**

MRP staff participation in performance evaluation and goal setting activities every two years.

**STAFF PERFORMANCE**

Improve accurate and effective transfer of patient information between service providers at all transition points.

**FALLS PREVENTION**

Implement a falls prevention strategy that captures all MRP chronic kidney disease patients across the program.

**PATIENT INFORMATION TRANSFER**

Build improved access to data on populations at risk of CKD in Manitoba to ensure informed approach to outreach and prevention initiatives.

**DATA-INFORMED PREVENTION PLANNING**

Raise awareness of quality initiatives and activities among staff throughout all MRP sites.

**QUALITY AWARENESS**

Raise awareness of quality initiatives and activities among staff throughout all MRP sites.

**VIOLENCE PREVENTION**

Work towards consistent staff education on Violence Prevention in the workplace across the program.

**CULTURAL SAFETY**

Implement the Truth & Reconciliation Commission’s Calls to Action for health and explore ways to build cultural safety in the program.
